How to in Details

1. How to install the script?
    - **Ans :** To install the script follow the steps below.
    - Extract downloaded from codecanyon on your PC.
    - **Upload** the Install.zip file to your server **public_html** or any other **directory** you intend to run the script.
    - **Extract** the zip file in that directory.
    - Create a new database from your server **MySQL database**.
    - Create a db **user** to the database and link that **database** to the **db user**.
    - First hit your **site url** and it will automatically take you to the **installation**.

- Click on **Start Installation Process**.
- You will get the **Checking File Permission** page. If everything is ok then click on **Go to next step**.
- Now you need to set **Database Host, Database Name, Database Username, Database Password** and click **Continue**.
- Now you need to **import sql file**.
- Now **fill up the information of shop** and click **Continue**.
- Click on **Go to Home/ Login to admin panel**.
-

2. How to activate the script?
    - **Ans :** Following the given procedure below will make the license activated for your domain and you'll be able to use the script smoothly:
    - Open the link in the browser.
    - In the respective fields, put your Name, E-mail, **CodeCanyon Username, Purchase Key** and your intended **domain name** for the script and verify the captcha.
    - The form will be submitted to check the purchase key and then activate the licence for that domain.
    - You can change the activation later from this same form. Activating a Regular License again with another domain name will remove the activation of the previous domain.

3. How to purchase products?
    - **Ans :** There are 2 ways to purchase any products. You can purchase any product by clicking on "**cart**" icon on product box or you can open the product in a new tab.
    - <u>Direct purchase without entering product details page</u>
    - Select "**cart**" icon.
    - A pop-up will appear with quick view of the products.
    - Select options(if available) & quantity.
    - Click on "**add to cart**".
    - A pop-up will appear with 2 buttons "**Back to shopping**" & "**proceed to checkout** " and select "**proceed to checkout**".
    - Your cart page will be available with summary. Click "**Continue to shipping**"
    - If you are registered user then **name** & **email address** will be available there.Insert **address**, **address**, **city**, **postal code** & **phone number** and click "continue to payment".
    - Select of the given payment gateway **paypal, stripe, sslcommerz, cash on delivery** & click on "**complete order**"

- Insert necessary credentials & **Pay**.
- If the selected payment gateway is "**cash on delivery**" then after click on "**complete order**" the page will reload & show you order placing successfully done message.
- Purchase from product details page
- Click on the product title and you will be redirected on product details page.
- From here you can check & select the product's all info and add to cart.
- You can also add this product to **wishlist** or **compare** list.
- To proceed the purchase follow the steps (**3-10**) above.
